– FOR IMMEDIATE RELEASE –

Borex announces the appointment of Jean-François Petit as Senior Vice President, Development, Europe

Paris (France), June 5, 2024 – Borex inc. ("Borex" or the "Corporation") (TSX : BLX) announce the appointment of Jean-François Petit as Senior Vice President Development, Europe, effective June 17, 2024.

Jean-François Petit joins the European Management Committee in charge of development at Borex, a pioneer in renewable energy and the leading independent producer of onshore wind power in France.

With over 25 years' experience, including 20+ years in management positions, Jean-François has a solid track record in the renewable energy sector. From 2004 to 2024, Jean-François worked for RES Group as Director of Development in France, Director of New Technologies Europe and then Deputy Managing Director. In 2019 he became Managing Director of RES SAS, becoming Q Energy France in 2021.

"We are very pleased to welcome Jean-François to our organization. We are convinced that his experience developing renewable energy, his international expertise and his leadership qualities will be invaluable assets in helping us continue Borex's growth in Europe", said Nicolas Wolff, Executive Vice President and General Manager of Borex in Europe.

"I chose to join Borex because of its values, its vision of the renewable energy market and its human and social qualities, which mirror my own principles. It's a great opportunity and a chance for me to be able to deploy my energy, my experience and my desire to contribute to the energy transition alongside a team of men and women who are experts, committed and motivated by the challenge of decarbonisation and producing renewable electricity that is accessible to everyone."

- Jean-François Petit, Senior Vice President Development, Europe.

Mr Petit will succeed Patrick Simon, formerly Senior Vice President Development, Europe, who stepped down last month. We thank him for his commitment and wish him every success in his future endeavours.

About Borex

At Borex, we have been providing affordable renewable energy for over 30 years. As a leader in the Canadian market and France's largest independent producer of onshore wind power, we also have facilities in the United States and development projects in the United Kingdom. Over the past five years, our installed capacity has more than doubled to 3 GW. We are developing a portfolio of nearly 6.7 GW in wind, solar and storage, guided by our values and our corporate social responsibility (CSR). Through profitable and sustainable growth, Borex is actively participating in the fight against global warming. Thanks to our fearlessness, our discipline, our expertise and our diversity, we continue to be an industry leader. Borex's shares are listed on the Toronto Stock Exchange under the ticker symbol BLX.
