

## Press release

– FOR IMMEDIATE RELEASE –

### Boralex awards Balance of Plant contract for Limekiln Wind Farm to RJ McLeod

**Edinburgh, United Kingdom, 9 November 2023** - Boralex Inc. ("Boralex" or the "Company") (TSX: BLX) is pleased to announce the appointment of Scottish civil engineering and construction firm RJ McLeod as the Balance of Plant (BoP) contractor for its 108MW Limekiln Wind Farm near Thurso in Caithness, Scotland.

Country Manager Esbjörn Wilmar said: *"Having the BoP contract in place represents another major step forward for Limekiln, not long after a strong Contract for Difference was secured. RJ McLeod has successfully worked with us in the past and we are very pleased to have them on board again. Apart from their excellent construction capabilities, RJ McLeod has strong local links which allows our investment to directly support the Highland economy."*

Nicolas Wolff, Executive Vice President and General Manager, Europe, commented: *"Our aim is to deliver 1GW of operational and ready-to-build renewable energy assets in the UK by 2030. Limekiln is instrumental in realising that ambition and it is great to see the project progress. The next few months will see full site mobilisation and works including cable trenching and turbine foundation pouring, among other things. Our team is on track to have Limekiln fully operational by 2025."*

The Balance of Plant contract arranges all infrastructure required for the installation of a wind farm outside of the turbine supply agreement. Limekiln Wind Farm consists of 24 Vestas V136-4.5MW wind turbines measuring 150m to the tip of the blade. The turbine supply agreement was secured with Vestas last year. ### About Boralex

At Boralex, we have been providing affordable renewable energy accessible to everyone for over 30 years. As a leader in the Canadian market and France's largest independent producer of onshore wind power, we also have facilities in the United States and development projects in the United Kingdom. Over the past five years, our installed capacity has more than doubled to over 3 GW. We are developing a portfolio of over 6 GW in wind, solar projects and storage projects, guided by our values and our corporate social responsibility (CSR) approach. Through profitable and sustainable growth, Boralex is actively participating in the fight against global warming. Thanks to our fearlessness, our discipline, our expertise and our diversity, we continue to be an industry leader. Boralex's shares are listed on the Toronto Stock Exchange under the ticker symbol BLX.
