

Boralex closes the refinancing of its corporate revolving credit

Montréal (Québec), June 27, 2014 – Boralex Inc. (“Boralex” or the “Corporation”)(TSX:BLX) has completed the refinancing of its corporate revolving credit facility for an amount of C\$130 million and improves its financial flexibility. Boralex also announces the reimbursement of its C\$35 million loan maturing on July 9, 2014.

This refinancing replaces the facility of C\$60 million which was scheduled to expire on June 30. It is secured by the assets of Boralex Inc. including its hydroelectric plants in Quebec. With an initial term of four years, renewable annually thereafter, this refinancing will allow the Company to further support its development.

This refinancing was arranged by National Bank of Canada in the capacity of lead arranger. In addition to National Bank of Canada, the banking syndicate includes The Toronto-Dominion Bank, Canadian Imperial Bank of Commerce, Bank of Montreal, Caisse Centrale Desjardins and Comerica Bank, an American bank.

About Boralex

Boralex is a power producer whose core business is dedicated to the development and the operation of renewable energy power stations. Currently, the Corporation operates an asset base with an installed capacity of more than 650 MW in Canada, France and the Northeastern United States. Boralex is also committed under power development projects, both independently and with Canadian and European partners, to add approximately 250 MW of power that will be put in service by the end of 2015. With more than 200 employees, Boralex is known for its diversified expertise and in-depth experience in four power generation types — wind, hydroelectric, thermal and solar. Boralex’s shares and convertible debentures are listed on the Toronto Stock Exchange under the ticker symbols BLX and BLX.DB, respectively. More information is available at www.boralex.com or www.sedar.com.

Caution regarding forward-looking statements

Some of the statements contained in this press release, including those regarding future results and performance, are forward-looking statements based on current expectations, within the meaning of securities legislation. Boralex would like to point out that, by their very nature, forward-looking statements involve risks and uncertainties such that its results or the measures it adopts could differ materially from those indicated by or underlying these statements, or could have an impact on the degree of realization of a particular projection. The main factors that could lead to a material difference between the Corporation’s actual results and the projections or expectations set forth in the forward-looking statements include, but are not limited to, the general impact of economic conditions, raw material price increases and availability, currency fluctuations, volatility in the selling price of electricity, the Corporation’s financing capacity, negative changes in general market conditions and regulations affecting the industry, as well as other factors discussed in the Corporation’s filings with the various securities commissions.

There can be no assurance as to the materialization of the results, performance or achievements as expressed or implied by forward-looking statements. The reader is cautioned not to place undue reliance on such forward-looking statements. Unless required to do so under applicable securities legislation, Boralex management does not assume any obligation to update or revise forward-looking statements to reflect new information, future events or other changes.

Non-IFRS Measures

The Interim Report contains a section entitled “Non-IFRS Measures”. In order to assess the performance of its assets and reporting segments, Boralex uses EBITDA and cash flows from operations as performance measures. Management believes that these measures are widely accepted financial indicators used by investors to assess the operational performance of a company and its ability to generate cash through operations. These non-IFRS measures are drawn primarily from the unaudited interim condensed consolidated financial statements, but do not have a standardized meaning under IFRS; accordingly, they may not be comparable to similarly named measures used by other companies.

The Interim Report also contains a section entitled, "Reconciliations between IFRS and Proportionate Consolidation," in which the results of Joint Ventures 50% owned by Boralex are treated as if they were proportionately consolidated and not as if they were accounted for using the equity method as required by IFRS. Since the information that Boralex uses to carry out internal analyses and make strategic and operating decisions is collected on a proportionate consolidation basis, management has considered it relevant to include the "Proportionate Consolidation" section to make it easier for investors to understand the concrete impacts of decisions made by the Corporation. Accordingly, tables included in this section reconcile IFRS data with data presented on a proportionate consolidation basis.
